

CANCER

June 21st – July 22nd

Element: Water
Quality: Cardinal
Ruling Planet: Moon
Symbol: Crab

Like the other water signs of the zodiac, Cancers are so intuitive, some may say they have psychic abilities. Because of this, they are naturally empathetic. Known as the Mothers of the Zodiac, Cancers adopt caregiver roles quite easily. They love to feel safe and secure, so their homes, where they love to be, are comfortable and ready for close friends to visit. Cancer rules the stomach as well, so they love to fill their loved ones up with delicious homecooked meals.

These crabs have a tough outer shell. At first, a Cancer may come across as cold and it's easy to tell when they're upset, but it's difficult to win over their trust and to get them to open up about what's wrong. However, Cancers feel deeply, and, with time, one will see that the shell only exists to protect what's underneath.
