

ARIES

March 21st – April 19th

Element: Fire
Quality: Cardinal
Ruling Planet: Mars
Symbol: Ram

Fiercely independent Aries is not only the first (cardinal) sign of the spring season, but of the whole zodiac itself. Because of this, Aries are known to be confident and ambitious leaders who never beat around the bush. Aries is ruled by the head and, therefore, they always dive head-first into everything, sometimes without thinking first.

Ruled by the planet Mars, the God of War in Roman mythology, Aries are also known for their fiery temper and aggressive reactions. However, Aries channel this active energy and their leadership skills into all areas of their lives, whether it be at work, playing sports, or in relationships, so you can always count on an Aries to get the ball rolling.
