

LIBRA

September 23rd – October 22nd

Element: Air
Quality: Cardinal
Ruling Planet: Venus
Symbol: Scales

Ruled by Venus, Libras, like Taureans, love the finer things. Libras have a need to surround themselves with beauty, in the forms of art, style, and people. As a cardinal sign, they're also innovators and leaders.

Known flirts, Libras love to feel loved…by everyone. It's not their fault that everyone's drawn to their charm. Despite this, relationships are paramount to these air signs and they work perfectly in pairs. The constant desire for balance causes Libras to be natural people-pleasers. They may change their attitudes and opinions, depending on the attitudes and opinions of the person they're speaking with. Because of all the perspectives Libras consider, they often struggle with indecisiveness.
