

SAGITTARIUS

November 22nd – December 21st

Element: Fire
Quality: mutable
Ruling Planet: Jupiter
Symbol: Archer

The philosophers of the zodiac, Sagittarians crave knowledge. Always seeking adventure and new experiences, Sagittarians suffer from a serious case of wanderlust. As a mutable sign, Sagittarians are very adaptable, but one might argue that Sagittarians aren't just good with change, but they *need* change. No career or relationship can tie a Sagittarius down. You must either go with the flow or be left behind.

With all this eagerness to learn, Sagittarians gain plenty of knowledge, but they do run the risk of believing that they know everything. Sometimes argumentative and outspoken, one can never tell a Sagittarius they're wrong. This, combined with their bluntness, may cause some people to see Sagittarians as quite insensitive and a bit pretentious, but many respects the Sagittarius for his or her honesty and fearlessness.
