AQUARIUS

January 20th – February 18th

Element: Air
Quality: Fixed
Ruling Planet: Uranus
Symbol: Water-Bearer

Rebellious Aquarians don't want to do what other people are doing. Because of this, they're often seen as eccentric, but not necessarily in a bad way. Governed by innovative Uranus, Aquarians are seen as visionaries and trendsetters. Not only are they trailblazers in art and fashion, but they're often known to be humanitarians.

An independent and stubborn fixed sign, Aquarians aren't afraid to speak their minds, but challenge their opinions at your own risk. Despite being a water bearer, Aquarians are a sociable air sign, but Aquarians love to be on their own, where they can come up with new ideas.
